ABOUT ME

Junior web developer with experience in HTML, CSS and JavaScript. Enthusiastic about creating user-friendly platforms to an outstanding quality. Seeking to develop current and learn additional languages to gain further experience within the tech industry.

SKILLS

Programming languages: HTML, JavaScript, CSS & Python.

Debugging: Proficient user of Chrome, Edge & firefox devtools for identifying bugs and Jira for reporting.

Frameworks: Using Django and Bootstrap for rapid development and responsive designs.

Problem solving: Skilled in bridging the gap between creative concepts from designers and practical front-end implementation.

Version Control: Efficient use of Git and GitHub to collaboratively keep on track with the latest improvements to projects.

WORK EXPERIENCE

Web developer | LazyCamp (Remote)   **March 2022 to Present**

- Reviewing existing webpages to identify areas of improvement.
- Collaborating with Designers and Developers to create new webpages.
- Testing and bug fixing to ensure system functionality and usability
- Building responsive web pages with cross browser compatibility (Chrome, Edge, Safari, Firefox) in both desktop and mobile.

Warehouse operative | Tesco   **Sept 2021 to Oct 2021**

- Picking and packing frozen goods such as food and drinks within a fast paced environment.
- Communicating with colleagues and senior members of staff to ensure efficient time management.
- Always keeping to health and safety practices.

Warehouse Technician | Production Resource Group   Jan 2018 to Dec 2020

- Forklift driving (Reach and Counterbalance), lighting and desk repairs, using various Programs to locate, prepare and dispatch equipment for orders in an efficient manner, with most orders having over one hundred products this was important.
- Remained flexible to scheduling needs of the business, including evening and weekend shifts.
- Offered to assist Loading and Unloading trucks and help Lighting Departments with big orders during busy periods such as the festival season, which led to development of additional skills and improved productivity within the warehouse.
